Signature **BLISS BITES**

Naturally Sweet at Heart

A rich centre made with dates, anjeer, roasted nuts and seeds. Its natural sweetness and dense texture form the heart of every Signature Bliss Bite.

Eight distinctive finishes.

Every bite is individually dressed with one of eight toppings, including pistachio, almond, rose petals, coconut and premium seeds. Each finish brings its own colour, flavour and texture.

Smooth Cashew Indulgence

The centre is wrapped in a soft, luxurious layer made with cashews and natural honey. It adds a creamy nuttiness that beautifully balances the dried-fruit core.

The image is a recipe graphic for 'Anjeer Bliss Bites'. It features a large background image of the bites on a dark slate surface, surrounded by ingredients like almonds, cashews, and pistachios. A circular inset in the top right shows a close-up of the bites. The text is overlaid on a dark, semi-transparent background.

Anjeer **BLISS BITES**

Naturally Sweet Anjeer & Date Base

A rich blend of anjeer and dates gives every bite its naturally sweet flavour and satisfyingly dense texture—without refined sugar.

Generously Nutty

Almonds, cashews and pistachios add a delicious crunch and roasted nuttiness, while pumpkin seeds bring another layer of texture.

Peanut **DATE BITES**

Naturally Sweetened with Dates

Dates provide the natural sweetness and soft, satisfying base of every bite—without refined sugar.

Rich Roasted Peanut Flavour

Roasted peanuts, dry coconut and pure ghee create a nutty, comforting flavour with a handcrafted texture. Made without artificial colours or preservatives

Sesame seed **DATE BITES**

Naturally sweetened with dates and made with white sesame seeds, dry coconut and pure ghee. Each handcrafted bite offers a rich, gently roasted sesame flavour.

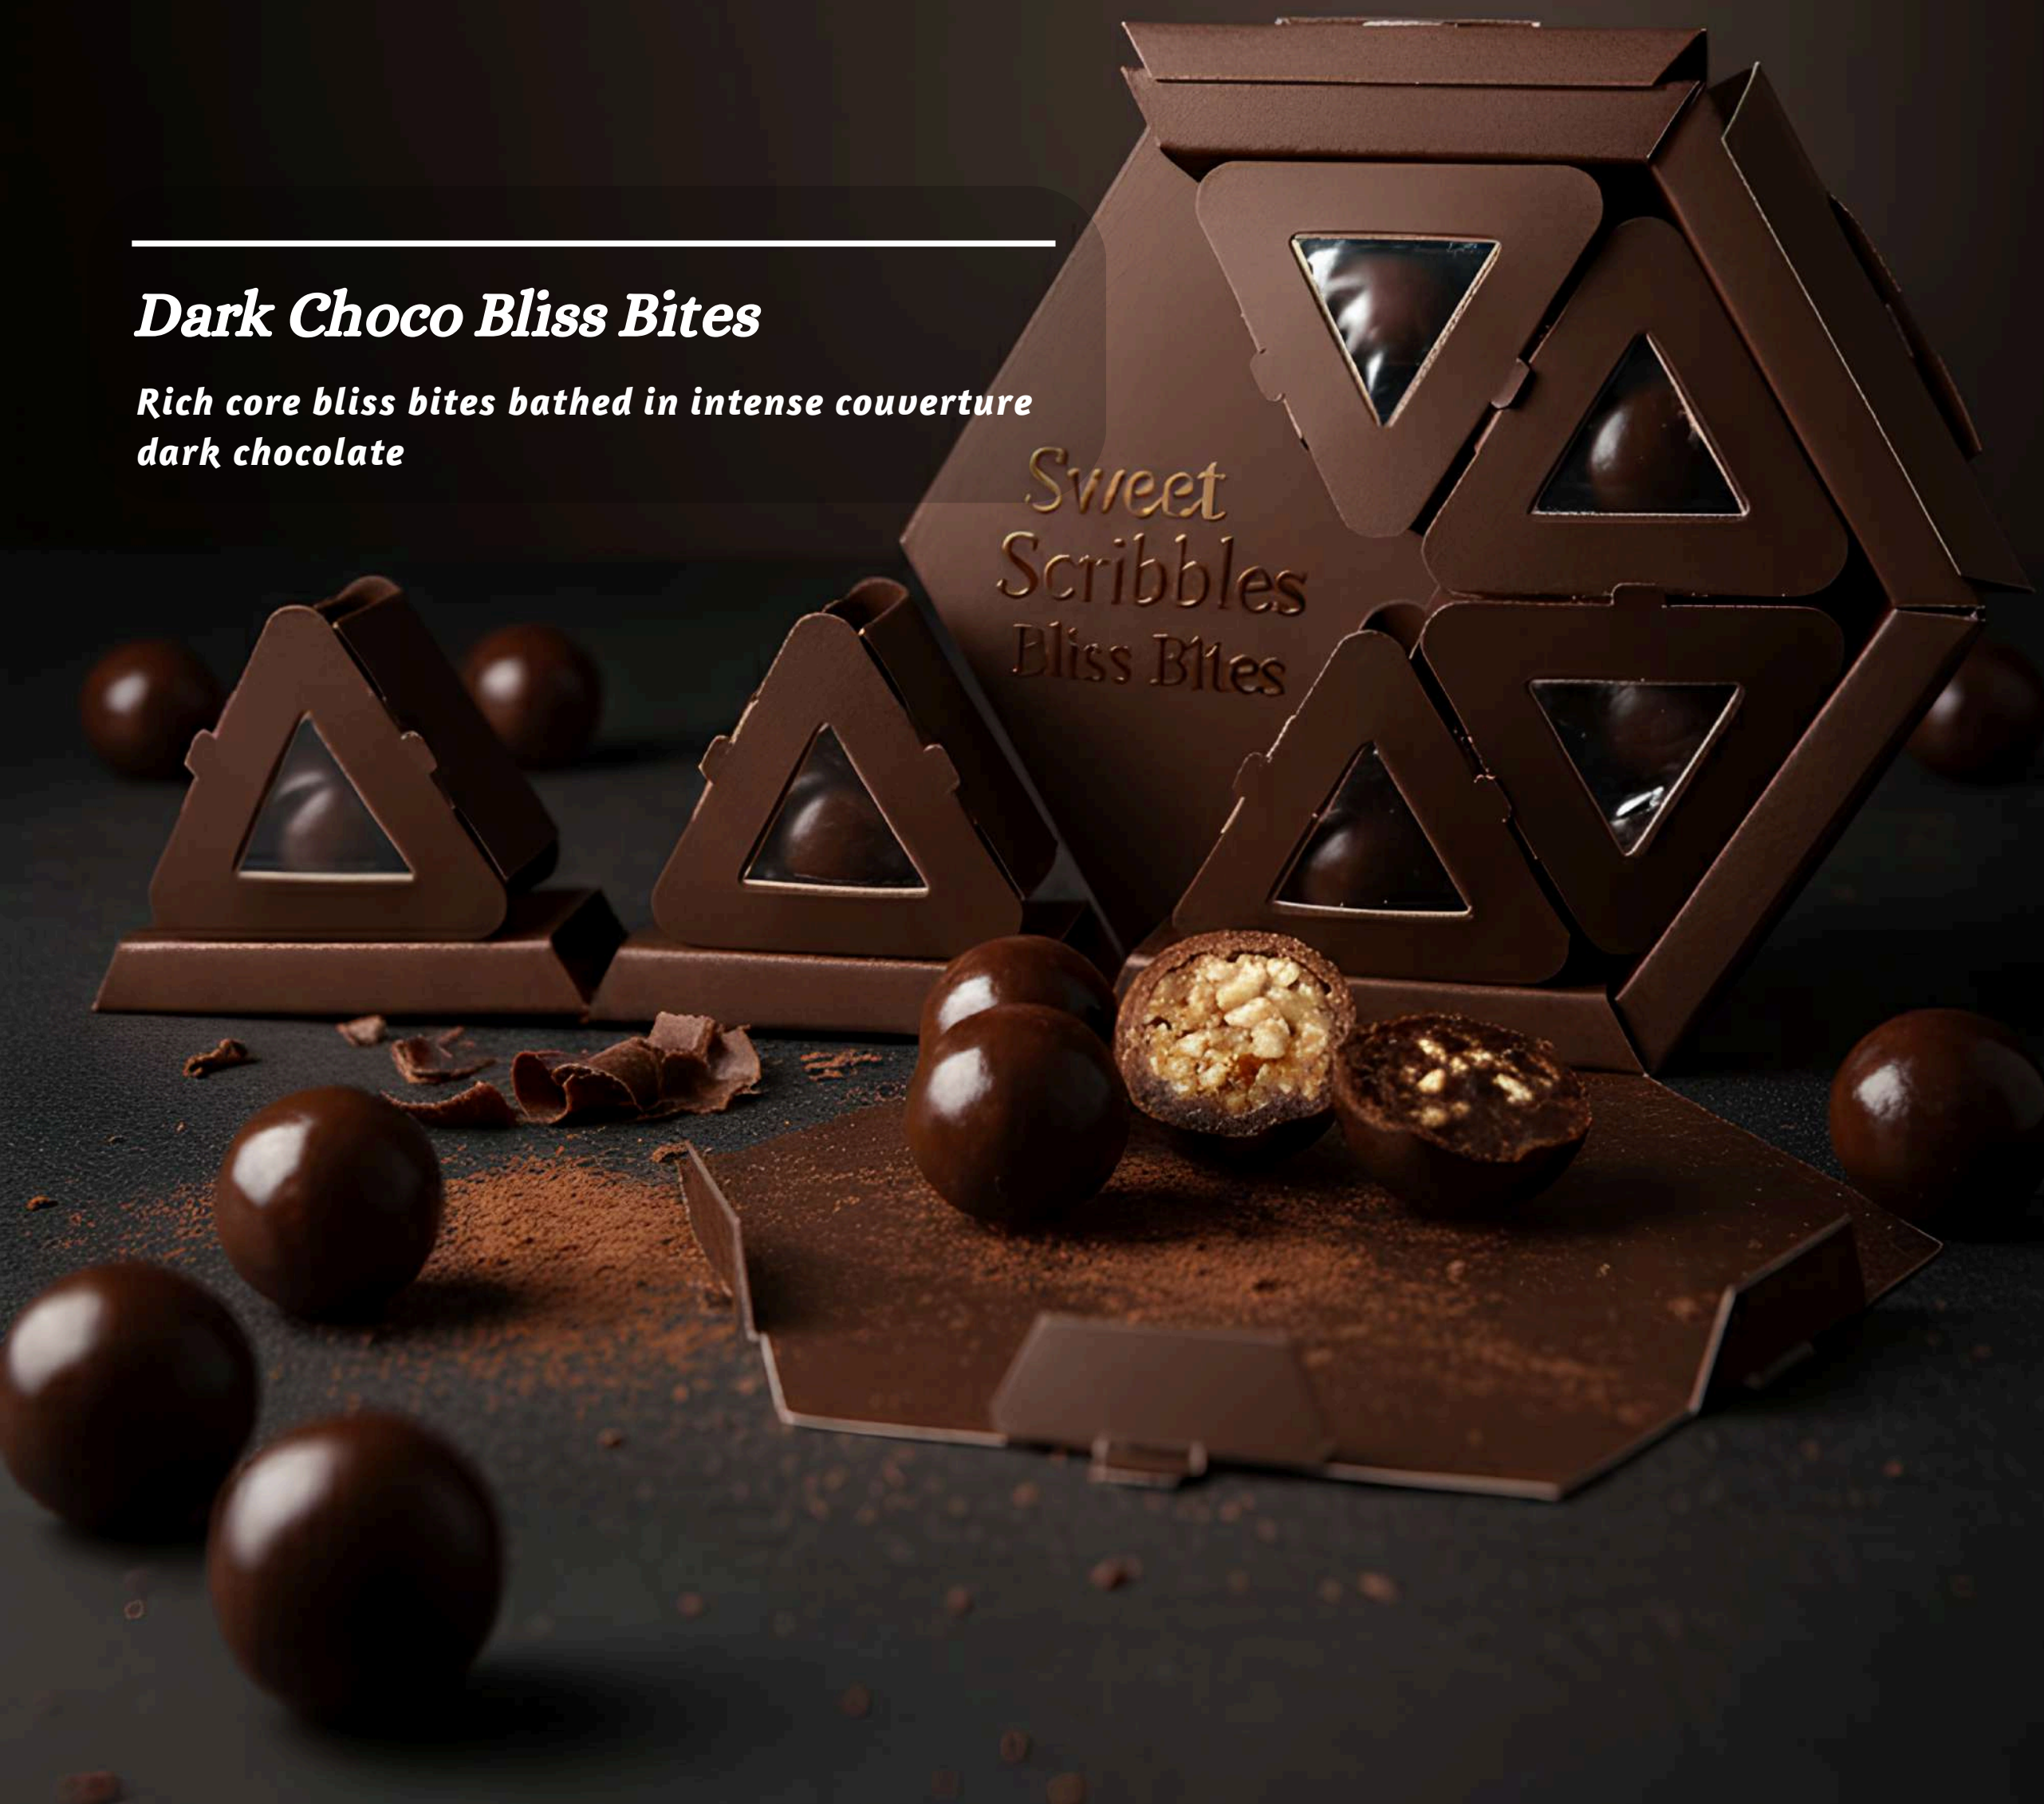

No refined sugar, artificial colours or preservatives.
